TRAINING
SCHEDULE
JANUARY - JUNE 2019
2019**

Note: A holding fee of \$100 will be applied to all Category A registrations. See expression of interest form for further information.

COURSE	TIME DATES	COSTS		
		CATEGORY A	CATEGORY B	CATEGORY C
<p>I Plumbing pre-apprenticeship (22304VIC – Certificate II in Plumbing (Pre-apprenticeship)) A plumbing pre-apprenticeship will introduce you to the plumbing industry and make you more attractive to prospective employers. By completing a pre-apprenticeship you will gain:</p> <ul style="list-style-type: none"> – Industry knowledge – Workplace exposure – Hands-on experience <p>An application and interview based selection process is involved. PROVIDER RTO: 3937 MASTER PLUMBERS</p>	<p>Commencing Feb 4 Full time for 13 weeks</p>	<p>Contact PICAC to register your interest in this course and find out if you are eligible for a government funded position.</p> <p>*This course is delivered with Victorian and Commonwealth government funding.</p>		
<p>I Asbestos Class A and B removal and supervision (CPCCE3015A – Remove friable asbestos) (CPCCE3014A – Remove non-friable asbestos) (CPCBC4051A – Supervise asbestos removal) Three day program designed to provide knowledge and practical skills for the safe removal of friable and non-friable asbestos containing material (ACM). It covers part 4.3 of the WHS/OHS regulations and meets the needs of removal personnel and supervisors to competently remove both forms of ACM. Note: This program does not result in a licence to remove asbestos or ACM. At the successful completion of the course, an industry blue card will be issued. Prerequisite: CPCWHS1001 – Prepare to work safely in the construction industry (or equivalent) PROVIDER RTO: 22556 PICAC</p>	<p>7.30am - 4.00pm for three days Feb 12, 13, 14 May 7, 8, 9</p>	0	570	750
<p>I Asbestos Class B removal (CPCCE3014A – Remove non-friable asbestos) This one day program is designed to provide an appropriate level of training for Class B (non-friable) asbestos removal. It will provide participants with an understanding of the nature, health hazards and regulatory requirements for identification and removal of Asbestos Containing Material (ACM). Prerequisite: CPCWHS1001 - Prepare to work safely in the construction industry (or equivalent) PROVIDER RTO: 22556 PICAC</p>	<p>7.30am - 4.00pm for one day Mar 1 May 14</p>	0	265	350
<p>I Asbestos removal refresher course The Victorian regulator requires practitioners to undertake a refresher course (annually for Class A and Bi-annually for Class B). This three and a half hour program is designed to refresh the skills previously obtained through an appropriate level of training. It will provide participants with an update on their understanding of the nature, health hazards and regulatory requirements for identification and removal of asbestos containing material. Prerequisite: CPCCE3015A – Remove friable asbestos and/or CPCCE3014A – Remove non-friable asbestos PROVIDER RTO: 22556 PICAC</p>	<p>7.30 am - 11.00am for one day Mar 28 May 15</p>	0	190	250
<p>I Supervise asbestos removal (CPCBC4051A – Supervise asbestos removal) Four hour program to cover part 4.3 of the WHS/OHS Regulations and meets the needs of removal personnel and supervisors to competently remove asbestos. Note: This program does not result in a licence to remove asbestos or asbestos containing materials (ACM). Prerequisite: CPCWHS1001 – Prepare to work safely in the construction industry (or equivalent) and CPCCE3015A – Remove friable asbestos and/or CPCCE3014A – Remove non-friable asbestos PROVIDER RTO: 22556 PICAC</p>	<p>12.00pm - 4.00pm for one day <i>Please contact PICAC to request dates for this course</i></p>	0	160	200

Note: A holding fee of \$100 will be applied to all Category A registrations. See expression of interest form for further information.

COURSE	TIME DATES	COSTS		
		CATEGORY A	CATEGORY B	CATEGORY C
<p>I Backflow prevention (CPCPWT4022A – Commission and maintain backflow prevention devices) Three day program designed to train plumbers in the commissioning, testing and repairing of backflow prevention devices. Participants must hold water supply registration and/or licence. PROVIDER RTO: 3937 MASTER PLUMBERS</p>	<p>8.00am - 4.00pm for three days Feb 5 - 7 Feb 13 - 15 (Geelong) Mar 5 - 7 Apr 9 - 11 May 7 - 9 Jun 4 - 6</p>	0	345	690
<p>I Disconnect/reconnect appliances connected to low voltage installation wiring (UEENEEP012A – Disconnect/reconnect composite appliances connected to low voltage installation wiring (addresses air conditioners)) (UEENEEP014A – Disconnect/reconnect water heaters connected to low voltage installation wiring) (UEENEEP015A – Disconnect/reconnect motors connected to low voltage installation wiring) Participants may select two units. Recommended for plumbers required to carry out electrical work on appliances connected to low voltage installation wiring. It covers the skills and knowledge required to safely isolate and disconnect electrical appliances then reconnect and test appliances. This course does not cover rectifying faults. Note: External course assessment occurs one week after course completion. Course cost includes one attempt at external assessment. Additional assessments will incur additional charge. Licence (REL Class 2) cost at participant expense. This course is delivered by Gastrain under a third party agreement, details on request PROVIDER RTO: 3937 MASTER PLUMBERS</p>	<p>12.00pm - 7.00pm for seven days Feb 18 - 21 Mar 4 - 6 External course assessment dates Mar 12, 13 8.00am - 4.00pm for seven days Apr 29 - May 2 May 13 - 15 External course assessment dates May 21, 22</p>	0	535	1070
<p>I Flexible duct installation course Online learning course designed for mechanical services plumbers who need to update their knowledge and skills to select and install flexible duct in accordance with new duct regulations. Participants must hold mechanical services registration. PROVIDER RTO: 3937 MASTER PLUMBERS</p>	<p><i>This course is delivered online at training.plumber.com.au</i></p>	0	51	102
<p>I Thermostatic mixing valves (TMV) (CPCPWT4023A – Commission and maintain hot and heated water temperature control devices) Two day program designed to train plumbers to test, commission and maintain hot water temperature control devices, including thermostatic mixing valves in water services. Participants must hold water supply registration and/or licence. PROVIDER RTO: 3937 MASTER PLUMBERS</p>	<p>8.00am - 4.00pm for two days Feb 19 - 20 Mar 19 - 20 (Geelong) May 21 - 22 Jun 18 - 19</p>	0	297	594

Terms and Conditions

- An administration fee of \$100 will apply to all Category A registrations if the participant fails to attend training, in line with the cancellation policy. The fee for Type A and Type B gas appliance and Disconnect/reconnect training courses is \$200.
- Course dates and locations are subject to change.
- Eligibility for subsidised rates is at the discretion of PICAC.
- Subsidised training is only available for courses booked through PICAC.
- Course codes and titles are correct at the time of going to print. These may change due to training package enhancements.

Privacy Policy

We will not sell, distribute or lease your personal information to third parties unless we have your permission or are required by law. We will only share this information with the Registered Training Organisation undertaking your training. You may request details of personal information which we hold about you under the Data Protection Act 1998. If you would like a copy of your information please contact training@picac.vic.edu.au. If you believe that any of your information is incorrect or incomplete, please contact us immediately, at the above address.

For more information on our privacy policy please visit www.picac.vic.edu.au.

General PICAC Cancellation/Refund Policy

PICAC or the providing RTO reserves the right to cancel courses for which a full refund will be given.

Refunds will be given to students who cancel based on the following:

- Full refund when 10 or more working days' notice is given.
- A 50% refund when 4-9 days' notice is given.
- No refund will apply if less than 4 days' notice is given.
- Substitutions are acceptable but you must advise PICAC of names prior to the course commencement.

For course specific cancellation policies please contact PICAC.

Payment categories

Category A – Training participant is a fully financial PPTEU member. May be registered in training course by self or employer.

Category B – Training participant is a Master Plumbers, AMCA or NFIA Association member.

Category C – Training participant is not a member of PPTEU, Master Plumbers, AMCA or NFIA.

Immediate family members (wives, husbands, de-facto partners and children) of PPTEU members may be eligible for discounted training programs. Contact CEPUTEC on 9356 8913 for more information. Training at PICAC is funded in whole or in part by Incolink, the construction industry's redundancy fund.

Note: Courses offered by the partner organisations and published in this schedule are provided for information only. NO payments are made to PICAC for the introduction or registration of any student in those providers courses. Applicants should contact the institution concerned and satisfy themselves that the course meets their educational needs.

A holding fee of \$100 will be applied to all Category A registrations. A participant who registers for training but does not attend the course and does not notify PICAC following the cancellation policy will forfeit this holding fee. Note the holding fee for Type A and Type B gas appliance servicing and Disconnect/reconnect training courses is \$200.
